

Tops

- Laminate Top w/ Lotz™ Armor Edge* High pressure laminate (HPL) top and moisture preventative & gum resistant phenolic backer bonded to 1.125" thick medium density fiberboard (MDF) core. Total top thickness 1.25". Choice of WB standard HPL. Optional top surface choices include writable surface laminate (markerboard) and most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request. (Check availability of non-standard colors, minimum order may apply.) Lotz™ Armor Edge is a WB exclusive polyurea that is extremely strong and durable. This edge will not separate from the MDF core and makes the edge completely water tight. 0.25" beveled radius edge. See catalog for color options.
- Laminate Top w/3mm Edge Band* The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top making the total thickness of the top at 1.25". 3mm PVC edge banding is applied to all edges, radius corners. Color matching unless otherwise specified. Complimentary colors available upon request. See catalog for color options. Optional top surface choices include writable surface laminate (markerboard) and most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request. (Check availability of non-standard colors, minimum order may apply.)
- Butcher Block Top* Hardwood: 1.75" thick, face-glued hardwood strips with 0.125" radius all corners/edges with two coats catalyzed clear lacquer top and sides with one clear coat bottom. Tops over 36" come in 2 pieces, 0.5" undersized, field assembled with joint connector bolts. Not recommended in areas with high exposure to moisture, such as sink locations. This will void the MFG Warranty. Gussets are standard on all LOBO Tables with Hardwood Tops.
- Phenolic Top* 1" thick black phenolic resin and cellulose fiber composite top with 0.125" radius edges and corners with high resistance to chemicals, humidity and abrasions.
- Stainless Steel Top* 1.625" thick, 16-gauge 304 stainless steel worksurface with particle board core. Wrapped and welded corners with a Safety J edge with moisture preventative & gum resistant phenolic backer. (Not suitable for food preparation or intended for heavy wash-down areas.) Note: Stainless Steel tops are shipped with a protective laser film to prevent scratching during transportation. We recommend using products containing M.E.K. for ease during removal of the film.
- Epoxy Top* 1" epoxy resin top with 0.125" beveled edge provides the greatest combination of physical and chemical resistance property as well as heat and flame resistance.

Frame

- Overview* The solid steel apron frame is 1" x 2", 16-gauge steel tube that is MIG welded with 10-gauge corner brackets that have (1) 3/8" hole drilled for leg mounting. The frame has welded tabs at preset locations used for fastening the apron frame to the back of the table top (excluding LOBO Tables with Hardwood Top).
- Corner Gusset Kit* Recommended for all LOBO tables with caster option, table size that exceeds 30" x 72" or intended table use heights greater than 31" for increased stability. Kits are unavailable on any shaped tables excluding rounds.

Legs

- Fixed - 1.5" square (-FX)* Fixed legs are a 14-gauge, 1.5" square steel tube with one (1) 5/16" leg bolt that is welded to the leg for attachment to the apron frame. Place a 5/16" lock washer and a 5/16" hex nut onto the leg bolt to attach leg to the apron frame. Use #10 x 3/4" square pan screws to secure the leg plate to the top (excluding LOBO Tables with Hardwood Top). Leg is finished off with a 1 3/8" adjustment nylon glide with 3/8"-16 thread x 1".
- Adjustable - 1.5" square (-ADJ)* The adjustable leg options include a 1.5" or 2" 14-gauge square outside tube or a 2" 14-gauge round outside tube. Each have two (2) holes for positive contact and safety with adjustability. The inner portion of the leg is a 1.25" or 1.75" 16-gauge square tube or a 1.75" 16-gauge round tube which are flow-drilled with tapped holes. The inner leg section is fabricated to fit into the upper leg assembly. Leg adjustments are made using two (2) M6 screws into the tapped holes of the lower leg. The upper leg has one (1) 5/16" leg bolt that is welded to the leg for attachment to the apron frame. Place a 5/16" lock washer and a 5/16" hex nut onto the leg bolt to attach leg to the apron frame. Use #10 x 3/4" square pan screws to secure the leg plate to the top*. Leg is finished off with a 1 3/8" adjustment nylon glide with 3/8"-16 thread x 1".
- Adjustable - 2" square Big Paw (-ABP)*
- Adjustable - 2" round (-ALR)*

Finish

- Frame & Leg* Choice of textured black or smooth silver frame and legs. (2" Big Paw [-ABP] only available in textured black.)

LOBO tables have passed BIFMA testing for 400lbs. load capacity.

Caution:

Any use of an epoxy top utilized in a mobile application will void any/all implied warranties on the top. This is due to exposing edges of an epoxy top to impacts will likely result in damages to the top.

Additional Options (See chart below for LOBO optional feature availability.*)

	Adder Code	Description
Premium Lotz AE™ Colors		See Catalog for color options.
Metal Wire Management	-WM	Length varies between 36" - 72", depending upon table length, black
Gussets	-G	Corner gusset kit is recommended for all LOBO tables with casters, if table size exceeds 30" x 72" or the height for intended use is greater than 31". Kits are not available on any shaped tables excluding rounds. (Standard on LOBO Tables with Hardwood Top.)
Grommet	-GR	Per grommet hole, includes cut out and grommet with cover.
Casters**	-CA	Dual-wheel soft tread locking casters, raises height by 2.11"
	-HDCA	3" heavy-duty locking casters, raises height by 3.5", 250# capacity per leg
	-HDCC_	3" heavy-duty colored locking casters, raises height by 3.5", 250# capacity per leg
Wheelbarrow Option	-2CA	(2) dual-wheel soft tread locking casters (2) and non-marring glides
	-2HDCA	(2) 3" heavy-duty locking casters and (2) nylon glides
	-2HDCC_	(2) 3" heavy-duty colored locking casters and (2) nylon glides
1.5" Soft Touch Glide	-FG	
1.25" Steel Glide	-SG	
2.5" Grand Hank Glide	-HG	
2" Backpack Hooks	-BPH	Smooth silver & black, set of 2
Tote Tray Kit	-TB__	Clear totes are standard. See Catalog for other color options.
Custom Sizes		Call Estimating.
Non-Standard Edge Band		See WB Finishes in Catalog for non-standard edge band colors.
Power Supply Modules		See Catalog for options.

**Casters are NOT to be used as leveling devices and require field assembly. When casters are added to LOBO fixed legs, the work surface height increases. It is recommended to add casters to adjustable legs to offset for the overall increased height.
