White and Colored Markerboard

Markers

Quartet® and Expo® Dry Erase Markers are recommended for white or colored Markerboard Laminate.

Cleaning

Markerboard Laminate can be cleaned using a felt or multi-purpose board eraser.

Deep Cleaning

Use a soft cloth dampened with warm tap water and mild soaps, such as those used for hands or dishes, are recommended.

Surface Maintenance

If stubborn stains persist, Markerboard Laminate can be cleaned with spray-type glass cleaners, such as Windex®, 409® Formula All-Purpose Cleaner, Isopropyl Alcohol or Zep® Write-Away Graffiti & Ink Remover.

Also, note various whiteboard cleaners and conditioners, such as Quartet, Expo, or Windex, available through local office supply stores, are excellent products for thorough cleaning.

Hard-to-Remove Stains

Hard-to-remove stains can be treated with a 2-minute exposure to hypochlorite bleach, such as Clorox®, immediately followed by a clean water rinse.

Remember to clean erasers often by wiping to remove dry-erase marker residue.
