

### Classic Construction

- Casebody* Sides, back, bottom, sub-top & sub-bottom are constructed using fully doweled 0.75" particle board with double sided thermal fused laminate with 3mm PVC edge banding\*.
- Worksurfaces* Top and wings are matching, 1" double sided high pressure laminate (HPL) with 3mm PVC edge banding\* over a 0.75" sub-top. Two folding brackets per wing.
- Doors* 0.75" double sided TFL, 3mm PVC edge banding\*, 4" satin nickel pulls and 6-point adjustable concealed hinges (European hinge).
- Shelves* Double sided TFL with 3mm PVC edge banding\* on front edge. Adjustable shelves have four double-pin shelf clips per shelf to prevent the shelves from sliding out or tipping. Fixed shelves are fully doweled.
- Base* Integrated, 1" caster base, 3mm PVC edge banding\*, 3" heavy-duty casters (two locking and two non-locking). Casters are installed onsite by others.

### Premium Construction

Premium 3D Printer cabinets are constructed the same as the Classic except the Premium cabinet components are double sided high pressure laminate (HPL) in place of the double sided TFL.

\*3mm PVC edge banding is matching, unless otherwise specified. Complementary color available upon request.

### Assembly

Each unit is factory assembled using glue and dowel construction. Casters installed onsite by others.

### Additional Options
