

Classic Construction:

Classic cabinets (sides, back, dividers, bottom and sub-bottom) are constructed using fully doweled 0.75" particle board with double sided thermal fused laminate (TFL) with matching 3mm PVC edge banding.

Shelves are constructed using fully doweled 0.75" particle board and double sided thermal fused laminate (TFL). The bottom shelf is the only one that has matching 3mm PVC edge banding on front edge.

Modular models have an integrated, matching fully finished 4" base and 3mm PVC edge banding. Each unit have built-in corner levelers which are accessible from the inside for easy leveling of the unit.

Mobile models have an integrated, 1" caster base, matching 3mm PVC edge banding, four hidden dual wheel non-locking plate casters. Hidden casters are installed onsite by others.

Magnet docking on mobile models and are located on both ends of the cabinets. Magnet docking is standard on LBN2060 models and optional on mobile models. Metal shelves are 1.125" painted 18-gauge Steel with a Safety J edge. Top mount handles (2 per unit).

Premium cabinets are constructed the same as the Classic **EXCEPT** the Premium cabinet components are **double sided high pressure laminate (HPL)** in place of the double sided TFL.

Assembly:

Each unit is factory assembled using glue and dowel construction. Hidden casters are installed onsite by others.

Shipping Class: Density Based Class
