

# Lotz Armor Edge™

## specifications

### Lotz Armor Edge™

**Top** - Lotz Armor Edge™ top is constructed of .75", 1.125" or 1.625" thick MDF (medium density fiber-board) core. MDF is a superior material for screw holding abilities exceeding 250 lbs., breaking strength and load tests.

**Back** - The material is phenolic which prevents moisture penetration to core material and provides an anti gum surface. High pressure laminate is bonded to the MDF core.

**Edge** - The .25" beveled or radius edge is finished using our exclusive Lotz Armor Edge™, a polyurea, which is extremely strong and durable. This edge will not separate from the MDF core material and makes the edge water tight.

**Colors** - The .25" Armor Edge comes black standard. Colors available-see chart below.

### Lotz Armor Edge™ Colors

Slate Grey

Plum

Indigo

Dove Grey

Black (Standard)
