

### Construction:

Both the Study Carrels and the Kiosks panels are constructed using 0.75" particle board with double sided thermal fused laminate (TFL) with matching\* PVC edgebanding. 1.25" matching high pressure laminate (HPL) work surface with phenolic backer, 34"W x 24"D. Choice of radius Lotz Armor Edge™ or a 3mm PVC edge banding front edge for the edge type. Work surface is equipped with a grommet and cord channel, making wire management easy. Assembled with metal slip joints and L-brackets.

### Lotz Armor Edge™:

The 0.25" beveled radius edge is finished using our exclusive Lotz Armor Edge™, a polyurea, which is extremely strong and durable. **This edge will not separate from the MDF core material and makes the edge water tight.** Lotz Armor Edge™ default is black. Premium colors available.

### Standard Colors

### Premium Colors

### 3mm Edgebanding:

Matching 3mm PVC edge banding\* is applied to all sides, radius corners.

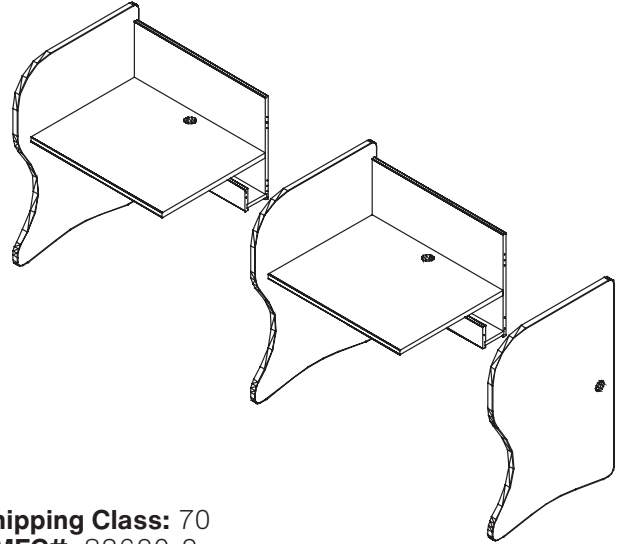

Base has adjustable non-marring nylon glides that help protect floors. Optional power supply modules.

\*3mm PVC edge banding is matching, unless otherwise specified. Complementary color available upon request.

### Adder Units (-AD)

Create semi-custom units or add on to existing units.

Shipping Class: 70

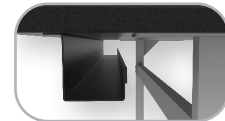

NMFC#: 83620-2

Assembly: Unassembled

### Standard Features:

Grommets (-GR)

Metal wire management (-WM)
